AN ARTFUL DODGER IS MR. ROCKEFELLER

More Than Twenty Deputies Trying to Subpoena Him.

RESIDENCE STRICTLY GUARDED

Officers Are Having a Lively Time In the Effort to Compel the Millionaire to Attend Court in Chicago on Saturday.

New York, July 4.—The whereabouts of John D. Rockefeller was still unknown Wednesday to United States Marshal Henkel and his deputies, who are trying to serve a subpoena on him to attend court in Chicago July 6.

Six process servers were on guard Tuesday night and Wednesday at the Mr Rockefeller's estate near Tarrytown, N. Y., but their vigil was unrewarded. Entrance to the estate was permitted only after identification by men employed about the place.

At the office of the Standard Oil company nothing could be learned either as to Mr. Rockefeller's whereabouts or as to whether he intends to give the deputy marshals who are searching for him in three states an opportunity to serve their summons.

Cleveland, Ohio, July 4.—Deputy United States marshals continued their search for John D. Rockefeller here Wednesday for the purpose of serving him with a subpoena to appear in court in Chicago, next Saturday.

Marshal Chandler said he still felt confident that Mr. Rockefeller was in or near Cleveland.

The search for Mr. Rockefeller on Wednesday was on a more systematic basis than anything attempted heretofore. With an increased number of deputies at his command, Marshal Chandler had the grounds at Forest Hill thoroughly gone over by his men. Deputy marshals also called at the homes of a number of Rockefeller's friends where it was thought he possibly might take refuge.

More than twenty deputies each with a copy of the subpoena are now searching for Mr. Rockefeller in this city or its suburbs.

As a result of the excitement incident to the Rockefeller residence being placed under guard, it is said that Mrs. Rockefeller has become seriously ill. She is suffering from nervousness and is attended by a trained nurse.

Lumber Company Files Suit.

Pensacola, Fla., July 4.—The Jackson Lumber company, operating at Lockhart, Ala., and owned by Michigan capitalists, has filed suit against the Louisville and Nashville, the Central of Georgia, and the nine other railroad companies to recover $65,000 alleged to be due on account of excessive freight rates. The lumber company alleges that the advance in 1903 of 2 cents a hundred in rates north of the Ohio river is a discrimination rate.

Walker Through Window In Sleep.

Savannah, Ga., July 4.—Joan Boyers, who had just returned from Jamestown with the naval reserves on Monday night, walked from the window of his room and fell to the ground, more than thirty feet below. He was not awakened until he struck the ground. There he was found, with no bones broken and apparently uninjured. He was taken to the St. Joseph's hospital to have a search for internal injuries made, but none could be found.

Women's Screams Saved Them.

Montgomery, Ala., July 4.—There is much feeling here over indignities to white women by negroes Tuesday night. Mrs. C. O. Bryant and Mrs. W. T. Dees were [illegible] by negroes who [illegible] one at [illegible] and the other at 11. Both [illegible] escaped. The police [illegible] did [illegible] and hope to [illegible] early [illegible].

PEPARING FOR WAR.

Unque State of Affairs Reported from Far Aaway Alaska.

Seattle, Wash., July 4.—A dispatch to the Post-Intelligencer from Valdez, Alaska, tells of the preparations for armed strife between the Copper River and Northern Railway forces, and the Alaska-Pacific railway men at Kotsina.

The Copper River railroad, well known throughout Alaska as the Guggenheim properties, claims to own the Copper River district in attempting to cross the right of way of the Alaska Pacific railway company, known as the Bruner line, which also is headed for the Copper River district by way of Lake Charlotte.

The Bruner people have appealed to Governor Hoggatt, of Alaska, for United States troops, alleging that the Guggenheim forces contemplate an armed attack on them. Officers at Valdez admit that the situation is serious.

The launch Pioneer, which arrived at Valdez Tuesday from Katalla, brings word that the Bruner road has erected a "Gun Device" at the crossing when the Guggenheims are trying to take. The machine by means of a donkey engine, swings continually across the tracks, making it impossible for men to work within a radius of fifty feet of the Bruner line.

It is reported that block houses of thick timbers have been erected along the right of way by the Bruner people and that the Guggenheims are paying $2 an hour to fighting men with a bonus of $100 to the first man who crosses the right of way.

ATTEMPTS TO ASSAULT GIRL.

Gwinnett County Citizens Make Ineffectual Attempt to Capture Negro.

Lawrenceville, Ga., July 4.—This city was thrown into much excitement Tuesday morning over the report of an attempt, by a negro, to assault the pretty 13-year-old daughter of Mr. R. N. Robinson, who lives 2 miles south of Lawrenceville.

Immediately, nearly every citizen of the city, with Sheriff Brown, were in pursuit of the negro. Most of the posse returned about 4 o'clock Tuesday afternoon, having utterly failed to get any clew to the fleeing negro.

Miss Robinson is a daughter of Mr. Charles Robinson, of Atlanta, and was on a visit to her grandfather.

The young lady is reported to have been at a spring near her grandfather's home, when she was approached by the negro, who carried a gun. She screamed, and the negro became frightened and ran off.

WOMAN KILLED BY LIGHTNING.

House Is Ignited and Contents Are Destroyed for Second Time.

Montgomery, Ala., July 4.—Lightning struck the residence of Ward Watson, in Dothan, at an early hour Tuesday. The house caught fire and with its contents was completely destroyed by the fire.

This is the second time the residence of Mr. Watson has been struck by lightning and destroyed by fire. In the first fire he was terribly burned about the body.

During the electric storm other residences were struck by lighting.

The home of Henry Kirkland, who resides 6 miles southwest of the city, was struck and burned to the ground.

Reports from the county indicate a heavy storm, and much damage to the growing crops and buildings resulted.

Returned and Killed Him.

Birmingham, Ala., July 4—Fletcher Webb, a young man belonging to a well known Butler county family, died Tuesday from a bullet wound inflicted at Carson Hill by a man by the name of Johnson. Johnson, it is claimed, had been worsting Webb, and Webb finally ejected him from the office. Johnson soon returned with a pistol, and fired upon Webb without warning.

Tate Will Run for Judgeship.

Atlanta, July 4.—The announcement comes from the Blue Ridge circuit that Hon. Claude Tate, of Pickens county, United States attorney for the northern district of Georgia, has consented to run, and his name in connection with the contest for the judgeship of that circuit.

DOZEN PEOPLE HURT IN TROLLEY ACCIDENT

Collides With Two Carloads of Rails at Washington, D. C.

RAILS TELECOPE TROLLEY CAR

One Rail Passed Through Motorman's Abdomen and Another Man Had Both Legs Severed—Many Women Badly Hurt.

Washington, July 4.—A dozen people were seriously injured and as many more slightly injured in a collision between a Washington-bound trolley car and two carloads of rails on the Washington, Arlington and Falls Church electric railway at 9:25 o'clock Wednesday morning.

The [illegible] left West End station at 9 o'clock [illegible] with employees in the government departments in Washington. It was delayed at Ashdale station for twenty-five minutes and then followed a car to Clarendon, which was bound for the Aqueduct bridge.

At Spruce station there were two flat cars loaded with steel rails and these were being taken to West End station. A motor car was pushing these flat cars and when one car passed the switch the freight started immediately without waiting for the regular Washington car. They came together south of the Spruce street station near Alexandria court house.

The rails on the forward car extended several feet beyond the trucks and when the crash occurred penetrated the passenger car, almost completely telescoping it. One rail passed entirely through the abdomen of Motorman William Moek, and one passenger had both legs severed.

There were many women in the car and several of these were badly injured.

The passenger car was proceeding down grade and it is admitted by the conductor that it was running at a rate of about forty miles an hour.

Twelve of the injured pasesngers were taken to Georgetown hospital, and those less injured were treated near the scene of the wreck.

AWFUL CRIME CHARGED.

Woman Said To Have Cremated Her Husband to Wed Lover.

Scranton, Pa., July 4—Mrs. Kindra Howersto, aged 18 years, of Dunmore, is in the city jail, charged with having burned her husband to death, that she might be free to marry her former lover, Ignatz Hutro, who is in jail also charged with being an accessory. The police say that Mrs. Howersto has confessed.

According to the story told by the police by Mrs. Howersto, she and Hutro were lovers before she married Howersto, two years ago. Hutro renewed his attentions to Mrs. Howersto and frequently was at their house. According to her confession Hutro came to the Howersto home on Monday and suggested that she do away with her husband so that they could be married. Following Hutro's suggestion, the woman got her husband drunk and when he was stupefied in bed she went to the room with the kerosene lamp. She poured the oil from the lamp on the bed and then she dropped the lamp on the bed, setting it afire. At the sight of her husband roasting and squirming in the bed, she became horrorstricken and rushed in the house crying fire. Neighbors extinguished the flames and had Howersto sent to a hospital, where he died without regaining consciousness.

Hutro denied all knowledge of the crime. Both are being held pending an investigation of the woman's story.

Noted Geologist Dead.

Nashville, Tenn., July 4.—A telegram from [illegible], announces the death of [illegible] M. Safford. He was a [illegible] of the [illegible] academic [illegible] of Vanderbilt university, and was [illegible] of the state geologist of Tennessee. He was [illegible] official surveys. [illegible] Safford was born at Zanesville, O., in 1822.

NEGRO CHEATS GALLOWS.

Swore He Would Not Be Hanged and He Kept His Word.

Jackson, Miss., July 4.—George Jenkins, the noted negro desperado, who was to be hanged at Tunica Wednesday for the murder of Herbert Clifton, a prominent young planter of that county, made good his remarkable declaration:

"I won't be hanged if I can help myself. The only way they will ever get me to the gallows will be to carry me there."

He committeed suicide in the Hinds county jail just as he was about to be taken from his cell, and carried to Tunica for execution. His body was buried in the potter's field.

Sheriff Owens, of Tunica county, returned home very much chagrined over the queer turn of fate that permitted Jenkins to cheat the gallows.

All preparations had been completed for the hanging, and it was to be a public event, the victim of Jenkins having been one of the most prominent planters in the delta and his friends demanded that the execution take place in public.

How Jenkins managed to procure the razor blade with which he committed suicide is still a mystery.

Jailer Cain believes that the weapon was slipped to him by some relatives and kept so skillfully concealed that it was not revealed when periodical searches of the cell were made.

THREE CHILDREN CREMATED.

Burn to Death In Fire Started by Burglars.

Houston, Tex., uly 4.—Fire started by burglars who looted a small grocery store here caused the death of three children of Mr. and Mrs. Jacob Prages, who conducted the store and whose family occupied the upper floor of the building.

The dead:

Morris Prages, aged 10; Louis Prages, aged 8; Pollipp Prages, 2.

Prages, hearing the burglars in the store, arose and discovered the interior of the room aflame. He succeeded in rescuing his wife and two daughters, but the three boys, who were sleeping in a back room, were burned to death.

The police have arrested a number of suspects who are being held pending an investigation. They claim to have the right man.

Drank a Bottle of Laudanum.

Columbia, S. C., July 4.—Charles Herbert, a young man, of Washington, D. C., died Tuesday night as the result of drinking the contents of a bottle of laudanum. Young Herbert had been employed as an operative in the Columbia Duck mill, and it is said that his domestic relations were unhappy. Shortly after his death, this note, addressed to Miss Minnie Watts, a neighbor, was found in Herbert's room: "If I die, telegraph my mother, Mrs. Edwards, 2215 F street, Washinton, D. C."

Bank Officials Sentenced.

Fort Smith, Ark., July 4.—Judge Rogers has passed sentence on the following officers of the defunct Southern Bank and Trust company, convicted by a jury Saturday last for using the mails illegally: C. C. Waller, president, of Texas, and Del men Lawson, of Pittsburg, Pa., vice president, to pay a fine of $1,000 each and to be imprisoned in the penitentiary for [illegible] months. Ed Hunt, the cashier, and J. M. Langston, Jr., director, to pay fines of $500 and $300 respectively.

Kaiser Goes to Copenhagen.

Injunction Case Dismissed.

Cincinnati, O., July 4—The application of the Cumberland Telephone & Telegraph company for an injunction to prevent the city of Louisville from establishing a flat rate for tolls, was dismissed by the United States circuit court of appeals. It was held that no federal question was involved.

TELLER ABSCONDS WITH $96,000 CASH

An Alleged Rather Remarkable Robbery In New York.

TRUST COMPANY THE SUFFERER

It Is Said Teller Coolly Crammed All the Available Cash In Suit Case, Smilingly, Said Goodby and Then Decamped.

New York, July 4.—Detectives throughout the United States are now searching for Chester B. Runyan, paying teller of the Windsor Trust company, who, the directors allege, is missing with $96,615 in cash.

The case is being handled by private detectives.

George W. Young, a director of the Trust company, confirms the reports of the defalcation, which, the detectives say, is one of the most remarkable ever reported.

Runyan is accused of having placed $96,317 in currency in a suit case last Saturday and departed after shaking hands with his associates.

Runyan, it is said, did not even go to his apartments to bid goodby to his wife to whom he had been married for five years..

Runyan is said to have taken all the cash available in the bank last Saturday. The directors, it is stated, have made up all the loss of the defalcation.

Runyan was a man of exemplary habits so far as is known, and his conduct was such as not to arouse any suspicion. When the auditors went over his accounts on May 1, they were found to be all right.

HOT TEMPERANCE WAVE.

Fight to a Finish Will Be Made In Atlanta, Ga.

Atlanta, July 4. The thirteen members of the city council who voted for the Beutell resolution to memorialize the legislature to defeat the prohibition bill have stirred up a political hornets' nest in the city, and those members of the council who contemplates running for office and have before this time had no opposition have brought the warmest kind of contests upon themselves. If the prohibition element in the city lives up to its promise.

After the meeting in the cause of prohibition Monday night at the Wesley Memorial church, Dr. Len G. Broughton stated that the members who voted for the resolution and are now running for city office will have opposition and that the fight will be to the finish.

Thirteen members of general council favored the resolution. The fight Dr. Broughton intends to start next Sunday night will affect just four of them, however, as only four are in the race for office.

It is announced that all of the churches are to have prohibition rallies next Sunday night, and that Atlanta is now in the midst of a hot temperance wave is assured.

Jury Will Not Indict Becker.

New York, July 4—After a week's investigation, the Queens county grand jury has refused to indict Henry Becker for the murder of 15-year-old Amelia Staffeldt, of Flushing. Becker will probably be discharged. Becker was arrested on suspicion, but it was not until after he had been put through the "third degree" that he made a confession. The grand jury, it is stated, believed Becker was scared into making the confession.

Good Work of Missionaries.

Seoul, June 30.—(Via Tokio July 3)—Protestant christianity in Korea has increased over 60 per cent in the past year, and there is promise of a national evvangelization under the auspices of the American missionaries. Marquis Ito has addressed an assemblage of missionaries, assuring them of his most sympathetic interest and of his readiness to co-operate in the national evangelization under the auspices of the intellectual elevation in Korea.

RETURNS FOR TWO CARS MELONS

Alachua County Grower Reported to Have Received Same.

MELENDON THE LUCKY MAN

One of the Pioneer and Practical Growers of the Luscious Melon is Well Rewarded for His Efforts, and Makes a Big Profit.

The watermelon industry in this county, especially in this section, is a very important one, and there are many profitable and successful growers who make a good livelihood from the product, but to W. T. McLendon, the pioneer of Alachua, belongs the honor probably of making the greatest success not only in Alachua county but the entire State, for the greatest returns from individual shipments. It has been stated by one of Mr. McLendon's friends who is in a position to know that one shipment of two carloads of melons in early season brought $200, which was probably the largest return for any similar shipment in the State.

Mr. McLendon is thoroughly posted on the culture of watermelons, as he has been engaged in that business for many years.

This arrangement goes into effect next Saturday evening, July 6. We regret very much, on account of the absence of some parties from the city, that we can get all the dealers in dry goods and clothing, but hope to secure, at an early date, a similar agreement among them.

We thank all the buyers of the city, both white and colored, for their co-operation with us in this movement prior to the perfecting of our plans. Merchants report a noticeable falling off of orders earlier last Saturday evening, enabling some of them to close their stores at a more seasonable hour.

We earnestly and respectfully request all Saturday shoppers to work with us in this spirit of co-operation and mutual helpfulness as far as is possible, to send in their orders by 6 o'clock Saturday afternoons, and take home with them all supplies purchased later than 8 o'clock, to prevent the burdensome midnight delivery of goods.

We also respectfully ask all employers of domestic and other laborers, in and near the city, to pay their employes their weekly wages at as early an hour Saturday afternoon or evening as is possible, so that they can do their trading sooner.

We request the colored ministers of the city to contique to co-operate with us in this movement, as they have already so kindly done up to this time.

ITALIAN WINS GRAND PRIX.

Four Hundred and Seventy Miles in 6 Hours and 46 Minutes.

Dieppe, July 3.—Nazarro, the Italian champion, Tuesday won the automobile grand prix, covering about 477 miles in 6 hours, 46 minutes, and 33 seconds.

The race was run over a heavy track in the presence of a vast concourse, with thirty-eight participants, chiefly French. Christie, the only American participant, driving an American machine, had trouble early in the race and did not figure among the leaders. Szisz was second, in 6 hours, 55 minutes, 10 seconds; Lancia, third.

The race was marked by no serious accidents, although a minor collision occurred between two of the cars.

Only nine of the contestants finished. Shepard doggedly persevered to the end, finishing last in seven hours, 39 minutes, 35 seconds.

The English, Belgian and German racers made almost as poor a showing as Christie.

Contrary to expectations, President Fallieres was not present. The cabinet was represented by Minister of Public Works Bathou.

WAR MEDALS FOR AMERICANS.

Emperor of Japan Bestows Them on Twenty-Nine.

Washington, D. C., July 4.—The emperor of Japan has bestowed war medals upon twenty-nine Americans who participated in the recent Russo-Japanese war. The list is composed of ten women who acted as nurses, and nineteen correspondents of the American papers.

The medals are of golden bronze, about the size of a double eagle, bearing on the face the crossed imperial standards of Japan, surmounted by the rising sun. The reverse presents a conventional monumental shaft flanked by a branch of palm and one of laurel. They are known as the "imperial order of the crown."

Metals and Metaphors.

"It is most amazing," said a metallurgist, "how the world relies on metals for its metaphors and similes. Thus an orator is silver tongued or golden mouthed. An explorer is bronzed by African suns. A resolute chap has an iron will. A sluggard moves with leaden feet. An ostrich has a copper lined stomach. A millionaire has tin. A swindler is as slippery as quicksilver. A borrower has brass."—New York Press.

CONFECTIONERY.

The Sugar Plum Is the Most Ancient Kind of Sweetmeat.

The most ancient kind of sweetmeat is the sugar plum. It was the invention of Julius Dragatus, a noted Roman baker and confectioner, who belonged to the family of Fabius. According to an authority on ancient history, it was in 177 B. C. that he made the great discovery which for twenty centuries has done so much damage to teeth.

These bonbons, called dragati, after their inventor (dragees in French), remained the exclusive privilege of the family of Fabius. But at the birth or marriage of one of that family a great distribution of dragati took place as a sign of rejoicing. The custom is still observed by many of the nobility of Europe.

Burned almonds are purely of French origin, owing their inception to the gluttony of a certain French merchant. One day Marshal Duplessis-Praiin, an old gourmet, sent for Lassagne, who had already invented many a toothsome dainty, to concoct a new bonbon for him. Lassagne searched, reflected, combined, until finally he conceived a delicious bonbon, which he baptised gloriously after the name of his master, praline, the French for burned almonds.—Pearson's Weekly.

The Old Time Stagecoach.

In 1702 there were, strange as it seems, only six stagecoaches running in all England, and of course these were the only public vehicles for travelers. Even these were a novelty, and a person named John Crosset thought they were such a dangerous innovation that he wrote a pamphlet against them. "These coaches," he wrote, "make gentlemen come to London upon every small occasion, which otherwise they would not do except upon urgent necessity. Nay, the convenience of the passage makes their wives come often up, who rather than come such long journeys on horseback would stay at home. Then, when they come to town they must be in the wade, get fine clothes, go to plays and treats and by these means get such a habit of illness and love of pleasure that they are uneasy after."

Another Nuisance.

It was the first time he was being married, and he was naturally a little nervous and upset, but he managed to say "Yes" all right and to keep time to Mendelssohn, sailing down the aisle, and to sign his name in the register without making more than a dozen blots.

He thought then that it was finished, but when they got to the church door they found it was raining.

"Confound it!" he cried, putting up his umbrella. "Another nuisance now!"

And then, though he cannot guess why, the people around all laughed, and his mother-in-law bridled and his wife refused to speak.—London Answers.

Facts About Coffee.

Coffee originally came from the island of Mocha, whence in the year 1616 coffee trees were transported to Holland. This article of diet was first scientifically cultivated at Surinam by the Dutch in 1718. Though coffee was not known either to the Greeks or Romans, it was used as a beverage by the Persians in early times. The first coffee house of which there is any record was opened in Constantinople in 1511, and coffee was first brought to France in 1632 by Thevenet, the famous traveler.

GUARDS OFF TO CELEBRATE FOURTH

Left for Jacksonville to Participate in Exercises.

TOOK A STRONG COMPANY

Soldiers Under Command of Captain Blanding Marched Off With Patriotic Hearts and a Determination to Have a Good Time in Jacksonville.

With Old Glory unfurled to the heavy, misty morning air, with the bugle sounding, but with hearts full of patriotism, the Gainesville Guards, thirty-two strong, marched to the Seaboard Air Line depot on the morning of the Fourth and boarded the train with the determination of invading Jacksonville and "sweeping" everything before them. It was a jolly crowd of boys, intent on a good time for a couple of days, and it goes without saying that they will have it for if the soldier boys can't get a good time there's no good time around.

The Guards were invited to Jacksonville several days ago to participate in the Fourth of July exercises, but it was not until Monday that Captain Blanding decided to accept the invitation. He announced his acceptance, however, on that day, and there never was a happier aggregation of the State troops than the Gainesville Guards.

The company slept in the armory Wednesday night, in order that they might be assembled without difficulty Thursday morning. The boys were awake bright and early, and when the order was given a little past 7 o'clock everyone fell in line promptly.

The company was in comamnd of Captain J. W. Blanding, with First Lieutenant Shields Warren, and the following was the roster:

Sergeants Boyd, Blake, Carlisle; Corporals Parish, Chapin, Holley; Privates Mizelle, Arnold, Simpson, Pinkoson, Beville, Scarborough, P. Smith, Malphurs, Dunning, Reeves, Chamberlin, Hester, McCredie, Gibson, Krause, Babers, M. Smith, Welch, Bevel, Jackson, Bennett, Strickland, Gore.

Head and Face Covered With Awful Itching Sores and Scabs—Would Scratch Until Blood Came—Mother in Despair for Treatment Did No Good—Dread Disease

YIELDED TO CUTICURA ALMOST IMMEDIATELY

"I was in despair about my baby. When he was about two months old his face and head were full of scabs and very itching sores with terrible running matter. I had to tie his little hands in bags for he used to make his face and head bleed. I had two or three doctors but they did not do any good. I was told to try Cuticura Soap and Cuticura Ointment and I can say that they stopped the running matter immediately and soon after I had washed him twice he looked almost well, but I used about three cakes of Cuticura Soap and four or five boxes of Cuticura Ointment, continuing the treatment for two or three months. I also used Cuticura Remedies for my other children and took Cuticura Resolvent myself to purify my milk for my baby whom I nursed while he suffered with that terrible itching and sores he had. Now I always have Cuticura Soap and Ointment in the house handy. I shall be glad if you want to publish this letter so that other sufferers will come to know what good the Cuticura Remedies can do. Mrs. Frances Rizzo, 1205 Dickinson St., Philadelphia, Penn., Nov. 8 and 18, 1906."

PROF. FULKS' FORTUNE.

Has Been Appointed Principal of Lake City High School at Good Salary.

Friends of Prof. J. H. Fulks, formerly of this city but now of Arcadia, will congratulate him upon his appointment as principal of the Lake City High School, a position which will pay him a salary of $175 per month for the scholastic year.

Prof. Fulks was at one time principal of the Gainesville Graded and High School. He is one of the most efficient teachers in the State, and the trustees of the Lake City school were wise in making their appointment.

Prof. Fulks has a farm at Arredondo, and has been here for several weeks looking after his cantaloupe crop, which was a large one. He returned to his Arcadia home Wednesday, and will remain there until the time for the opening of his school in Lake City.

HELD AS HOSTAGE.

Commander of Sultan's Body Guard Is Prisoner of Bandit.

Tangier, Morocco, July 4.—General Sir Harry Maclean, commander of the sultan's body guard, has been made a prisoner of state. Raisuli, the bandit chief, refuses to hold a hostage for the sultan until the sultan acts to protect Raisuli on his own term.

General Maclean was negotiating with Raisuli concerning the latter's pardon when he was made prisoner. General Maclean is a former officer of the British army, and is descended from an old Scotch family. All his influence with the sultan has been exerted in the interests of civilization and humanity, and he is universally respected even among the most fanatical of the foreigner hating Moors.

The Smile

That won't come off appears on baby's face after one bottle of White's Cream Vermifuge, the great worm medicine. Why not keep that smile on baby's face? If you keep this medicine on hand you will never see anything else but smiles on his face. Mrs. S——, Blackwell, Okla., writes: "My baby was peevish and fretful. Would not eat and I feared he would die. I used a bottle of White's Cream Vermifuge and he has not had a sick day since." Sold by W. M. Johnson.

Believes Orchard's Story.

Boston, July 4.—In a newspaper interview Professor Hugo Muensterberg, the Harvard psychologist, who has been attending the Haywood trial at Boise for the purpose of studying the mind of Harry Orchard, says that he believes Orchard's confession to be thoroughly true. "I visited the penitentiary," he said, "and made a psychological examination of Orchard lasting eight hours, but it is impossible to sketch the results of this test in any popular way without giving also the technical data upon which my conclusions rest."

THE DAILY SUN,
GAINESVILLE, FLA.

"I doubt not that Satan rides in an automobile," says a Detroit minister. Also we have heard that Satan was a speeder.

"Back to the Constitution," says the New York Sun. It is alleged that Mr. Roosevelt even goes so far as to take the big stick to it occasionally.

"A driver went through the pasteboard," says a realistic writer in a railroad story. As a matter of fact, it probably was the Pullman porter.

"It takes more nerve for a woman to open a telegram than it does for a man to open a jackpot," says The Philadelphia Inquirer. And the result is frequently far less startling.

Secretary Taft denies that he snubbed Senator LaFollette at Madison, and says that he was very polite to both LaFollette and Spooner. Who said that Taft was not a candidate?

The growth of beer drinking in France is said to be one of the causes of the present wine-growers' agitation. Naturally the idea of Milwaukeeizing France has brought forth hints of another revolution.

The Ocala Banner says: "Gadsden county, in addition to her tobacco fields, the richest in the State, and equal to the best grown in Cuba and Sumatra, has now struck oil, and a company has been formed to sink wells, and the county is much excited over the discovery."

Hon. Frank Adams has resigned as State Senator from Hamilton county, to take effect upon the election of his successor in 1908. This action on the part of Senator Adams is generally construed as an indication that he will be a candidate to succeed Stephen R. Mallory as United States Senator.

Pensacola people are now being treated to a taste of the Sunday "blue laws." It is said that not even a lemonade can be obtained in the Deep Water City on the Sabbath. The natives, however, are not prohibited from partaking of "gopher soup," provided the gopher is captured and butchered prior to 12 o'clock Saturday night.

The indications are that the people of Georgia will soon be in throes of another prohibition campaign, and the unanimity with which the people have voted against the sale of whiskey in every county in the State in which elections have recently been held points to victory for the temperance people in the approaching contest to prohibit the manufacture or sale of intoxicating liquors in the State.

The Railroad Commission could not do the people of Florida a better service than to require the railroad companies to equip their coaches with fenders, the same as sleeping cars are equipped with. It would not only keep out much of the dust, but would protect the eyes from cinders. The expense to the railroads would be immaterial as compared with the comfort afforded the traveling public. Let the commissioners "get busy" in this matter.

WHAT'S THE MATTER WITH CLARK?

If the friends of Frank Clark really believe he is solid with his constituents, they should cease to warn rivals off the track. They have the right to oppose his re-election. He will be all the stronger if he beats them. To cry down opposition is taken as a confession of weakness and such talk does not strengthen the candidate. It might easily be that the opponents of Mr. Clark were better friends to him than some of those who assume to speak for him. There can be no monopoly of political honors in this State save by better service.

The above from The Times-Union of the 1st inst. evidently refers to some late editorial expressions of The Live Oak Democrat, The Starke Telegraph and others to the effect that Mr. Clark has made so good a record in Congress that it would be useless for anyone to oppose him in the next campaign.

It looks as though The Times-Union is afraid Mr. Clark will not have position? Has he not proven himself position? Has he not proven himself a faithful public servant? We know that there is no man in public life in Florida today who more cheerfully concedes the right of his fellow-citizens to become candidates for the office he holds than Frank Clark: he considers that the office belongs to the people and they have the absolute right to put someone else in his place whenever they see fit, but we agree with The Democrat and Telegraph when they assert that it would be a waste of time and money for any man to run against Clark. He has made a splendid record and we believe an overwhelming majority of the people intend to keep him where he is.

Our people are learning from the New England States that the longer a good man is retained in Congress the more useful he can be to his constituents, and when the South generally adopts this plan the more powerful will she become in the councils of the nation. While any citizen has the right to aspire to this office, if we already have a tried and faithful representative who is willing to serve us further, what good can come to the people by inducing others to run and stir up political strife? If affairs are satisfactory, why seek a change? And by the way, who is The Times-Union candidate?

The editor in a recent issue of The Home Companion very sanely suggests that the woman who drops all her lavish love for "her man" with the coming of the first baby, and devotes herself exclusively to her child, leaves her husband where she found him—young, undeveloped, probably poor in health and position. If he fails to climb through lack of her help and companionship, she and her whole family will live a life of struggle and poverty. If, on the other hand, he climbs without her, he soon outdistances her in the things of this world. At home she is developing herself on one side only—the side of devotion, self-abnegation and domesticity. At forty or fifty, when the children are gone to homes of their own, and her husband has, at last, won single handed the object of his ambition, she turns to meet him again. She is surprised to find no trace of the young man she left in the years that are gone. Having withdrawn her heart—unwittingly, we would be kind enough to say—she turns now to a heart she does not know, and if she would she finds herself incapable of the sweetest joy that might have come to her in the more constant years.

Wonder what the feelings of the President were when he noticed that as soon as he departed for Oyster Bay the Teddy bears in Washington were marked down to 79 cents.

OF INTEREST TO VETERANS.

Governor Broward, Comptroller Croom and Treasurer Knott comprising the State Pension Board have issued the following circular letter to the clerks of the circuit court which will prove of interest to those already drawing pensions, as well as those who had made application for pensions but whose claims had not been acted upon prior to the enactment of the new law. It will be noted that the latter are required to make new applications on blanks now to be obtained from clerks of the circuit court.

Tallahassee June 22, 1907.

To the Clerks of the Circuit Courts of the State of Florida:

Gentlemen—The new pension law, chapter 5600 of the laws of Florida approved May 29, 1907, provides that "persons drawing pensions under previous acts of the Legislature of Florida are retained and entitled to the benefits of this act." Under this provision the board of pensions has already graded and classed all of the pensioners on the roll and they will be paid under the new law from May 29, 1907. No applications will therefore be required from those who were on the pension roll at the time of the passage of the act of 1907. All that is required from the old pensioners is a quarterly voucher in the usual form, but the amount of the pension should be left blank in such case so that it can be filled in here.

All persons desiring pensions who are not on the pension roll (i. e., receiving a pension upon an approved claim) prior to May 29, 1907, will be required to make application according to the new forms prepared under the act of 1907.

Yours very truly,
N. B. BROWARD, Governor.
A. C. CROOM, Comptroller.
W. V. KNOTT, State Treas.,
Pension Board.

GEORGIA LEGISLATURE.

Deluge of New Measures Continues to Pour in House.

[illegible] committees [illegible] speaker and [illegible] Hall that [illegible] for [illegible] the house [illegible] of the [illegible] joined to meet again Wednesday morning.

[illegible] clerk's desk [illegible] were read, as [illegible] read for the first time Tuesday.

In spite of the fact that [illegible] consideration has been given upon it, one bill [illegible] introduced in Tuesday's session.

Chief among these was the [illegible] by Holder, of Jackson, and [illegible] ander, of DeKalb, looking to the [illegible] ation of a state bank [illegible] providing for the operation and [illegible] ance of the same.

This bill is directed to revolutionize the bank inspection system in the state and has been formulated on the suggestions of a number of the leading bankers.

A measure which will be sure to elicit a great deal of attention and much debate is that by Mr. Mann, of Polk county, which fixes the date of all state, county and congressional primaries on the third Wednesday in August for those years in which elections are to be held.

Another railroad commission bill was introduced in that of Mr. Russell, of Muscogee, which provides for the appointment of a railroad inspector by this board and prescribes his duties.

The bill of Mr. Holder, of Jackson, to make all private roads now used by rural free delivery carriers subject to improvement and being kept in good condition like the public roads of the county is another of the general bills which was widely commented upon.

The annual bill to tax all dogs was introduced Tuesday. This was by Mr. Lumsden, of White, who further provided that no suits be allowed about dogs not so taxed.

W. H. Rogers, the negro member of the house of representatives from McIntosh county, will retain his seat.

By the unanimous resolution of the committee on privileges and elections which sat on the contest instituted for the seat by George E. Atwood this decision was reached.

REPUDIATES "UNWRITTEN LAW."

Decision Rendered by the Supreme Court of Iowa.

Chicago, July 3.—A dispatch to the Record-Herald from Des Moines, says:

The supreme court of Iowa, in a decision delivered Tuesday repudiated the "unwritten law" and administered a stinging rebuke to G. A. Barnes, county attorney of Dubuque county, who made an argument to a jury construed to countenance a resort to this law.

The defendant in the case is Dr. P. M. Harmann, a physician of Dubuque, who was charged by his wife with being unfaithful to his marriage vows. Mrs. Jacob Keiter, of Dubuque, was named in connection with the case. The trial in the lower court resulted in a conviction of the physician. During the trial, the county attorney said to the jury:

"Instead of trying a case for violation of marriage vows here, you should be here for the purpose of determining whether or not Jacob Keifer would have been guilty of murder if he had exercised his manhood, taken a gun or a pistol and shot through the heart Dr. Harmann."

The supreme court says:

"This statement has no foundation in law or fact, and it is highly important that no such appeals be made. It was the duty of this county attorney to discourage the very thing he was countenancing."

The supreme court reversed the verdict of the jury on account of appeal made by the county attorney, and held that the evidence in any event is insufficient to support a conviction.

Bad Stokers Delay Steamer.

New York, July 4.—Unable to keep up steam because of inexperienced stokers employed to take the place of dissatisfied firemen, the steamer Vaderland arrived from Antwerp Wednesday two days late. The company having had considerable trouble with the firemen on the Vaderland at Antwerp, shut them out and engaged inexperienced stokers at Dover.

Gold Shipments.

New York, July 4.—Announcement was made Wednesday of the engagement of $1,000,000 in gold for shipment to Holland—$500,000 by Goldman, Sachs & Co., and $500,000 by Heidelbach, Ickelheimer & Co.

SHORT TALKS BY L. T. COOPER.

IMPURE BLOOD.

If you could see inside the stomachs of most people who suffer from impure blood you would wonder that they are not suffering worse. The undigested portion of food eaten days ago is still lying there, fermenting, decaying and clogging the intestines. From this disgusting mass the blood must derive nourishment to carry to every organ of the body. Think of it. Is it any wonder their complexion is bad, their breath offensive, their bowels inactive and their health impaired in every way? Is it any wonder that they can get no relief from blood purifiers, purgatives when as fast as the blood is cleansed it is tainted again? Try a rational treatment. Take something to help the stomach rid itself of this stagnant mass and to keep it from accumulating. Then see if you don't improve. One bottle of Cooper's New Discovery will prove my words to you. I have seen hundreds of just such cases and here's one of them:

LITTLE SON OF MRS. HAHN.

"About a year ago my little son, who is nearly four years of age, suffered an attack of scarlet fever. Soon after he contracted what we thought was some form of eczema. Sores and blotches broke out on him and he became weak and peevish."

"We tried physicians and medicines but nothing seemed to help him until several weeks ago we started to give him Cooper's New Discovery and noticed an improvement almost immediately. After a few doses we noticed his appetite was better and gradually his little face assumed a brighter appearance. His skin is now cleared up and I want to thank you sincerely for what the medicine has done for him." Mrs. Herman Hahn, 823 Johnson St., Nashville, Tenn.

Ask us about Mr. Cooper's famous medicines. We are the agents.

A lantern parade was held in Honolulu in honor of Prince Fushimi, and it is said that ten thousand Japanese participated in the parade.

Secretary Taft has gone for a vacation of a month to be spent at Murray Bay, Canada. The secretary was unaccompanied.

SMALL CONFIRMS REPORT.

Telegraphers To Be Ordered Out in Another City Soon.

San Francisco, July 4.—President S. J. Small, of the Telegraphers' union, has confirmed the report that he had ordered out the operators in another city.

"I have ordered the union operators in at least one more city out on strike," said he. "I will not, however at this time divulge the name of that city, but the Telegraphers have been notified and will be out in less than a week. When the whistle sounds in the office designated, the keymen will leave their places. Until I choose to make the place known, neither telegraph companies nor the public will know where the bolt is to fall."

Both of the telegraph companies are now accepting business without the stipulation of "Subject to delay." Accordingly the officials of the local offices have had to [illegible] hour descriptive [illegible] their rates.

WOOING SLEEP.

A Prescription That Worked Well in Philadelphia.

A haggard looking man strolled into a downtown drug store the other day and asked the druggist to help him. He said he had trouble in getting to sleep when he retired. No matter how sleepy he might be during the day or how much sleep he may have lost, the moment his head touched the pillow he was wide awake and lively. this for several hours. Occasionally he was very hard to wake, but he had to be up at a certain hour, and in consequence of his peculiar habit he was losing a good deal of sleep that he could ill afford. The drug clerk reasoned with quizzically a few moments and then replied:

"My dear man, you don't want medicine. What you want is something to change the trend of your thoughts. Do as a friend of mine did. He was troubled the same way and found that the old folks' plan of counting sheep passing a barrier and counting them was out of date, so he began trying to name all the states in the Union. He soon got them so he could classify them alphabetically. Then, when they no longer interested him, he started on the counties of his state. He now has them at his tongue's end, classified up to the fourth letter. Now he is starting on state capitals and their locations. Then he will take up county seats. A moment's glance at an atlas during the day shows him when he is wrong, and the beauty of the plan is that he rarely has to think along these lines longer than ten minutes before he is sound asleep. To make it short, the study of geography is a good narcotic."—Philadelphia Record.

A BOY HUNT.

Chased From Hedge to Hedge by a Big Pack of Weasels.

The following extract from an interesting book may be of interest to our friends. It is "From My Life as an Angler," by William Henderson, published in London in 1879.

"About this time, while rambling in the picturesque lane leading from Merrington to Windlestone with two other boys, an adventure occurred sufficiently startling to two little fellows from nine to ten years old. We were busily engaged in picking wild strawberries, which clustered in the hedgerows, when we saw at about a hundred yards distance a pack of at least twenty weasels running from hedge to hedge and evidently scenting out footsteps. It flashed upon us that we were being hunted. So, springing over the nearest hedge, we ran across a pasture field and, standing upon the farther bank, looked back toward our assailants. To our dismay we saw the whole pack, with noses to ground, steadily tracking our course. The word was given, 'Run, run!' and off we scampered across another field to take up our position on another hedge. Still the pursuit was going on, and the creatures were evidently gaining upon us, so with a wild shout we fled to the village, which, happily for us, was not far off. I have frequently heard of persons being attacked by weasels, but was never hunted by them on any other occasion."

The above must have occurred about 1812, the locality being the north of England.—Forest and Stream.

Shooting the Steenbuck.

Many of the poor Boers in the Transvaal, by whom all the shooting that is done is for the pot and not for sport, have perfected a system of shooting with the assistance of oxen. A steenbuck has no fear of cattle and will lie still even if they graze right up to him. The hunter gets together a few cattle and with his gun walks behind them in such a way that he cannot be seen from the front. Great care has to be exercised to drive the oxen so that they may seem to be grazing naturally. The hunter must be ready to shoot without having to alter his position. The slightest movement is noticed by the buck.

HOW BONNER WON SUCCESS

The career of Robert Bonner, the veteran publisher, furnishes a signal illustration of the value of persistent and sagacious advertising. When he began the publication of the paper whose phenomenal success brought him fame and fortune, he did not wait for the people to find out, slowly and gradually, the interesting features of his journal.

He forced his enterprise upon public attention by a systematic lavishness of expenditure for advertising which at that time was without precedent or parallel. Whole pages of daily newspapers were secured at high prices to blazon forth the merits of his undertaking.

From one end of the country to the other the names of Bonner and his Ledger were made familiar to the people by constant repetition.

Conservative publishers, jogging along in the ruts of old routine, prophesied bankruptcy and ruin for this unconventional innovator, but Bonner kept on spending a large share of his receipts in buying publicity, and those receipts increased with startling rapidity.

Every dollar disbursed in this way brought in more dollars until croakers were confounded and pessimists in this particular branch of business silenced by his tremendous success.

The lesson is one that is as well worth heeding today as it was forty years ago.—Philadelphia Bulletin.

Large space in this paper is one of the best investments a merchant can make.

THINKING ALOUD.

A Ruse Which Roused Lord Dudley and Formed a Friendship.

One of the earls of Dudley, who was addicted to the practice of thinking aloud, found himself in a very awkward predicament on a certain occasion. He was to spend the evening at the house of a friend and ordered his carriage early, as he had a long drive back to [illegible].

When the carriage arrived the carriage was not forthcoming. Seeing that Lord Dudley was considerably annoyed [illegible] one of the guests, whose name escaped him just then, politely offered him a seat in his carriage. The gentleman was a perfect stranger to Lord Dudley, but [illegible] accepted.

The drive was a very sociable one. Lord Dudley took his seat and relapsed into silence, his thoughts apparently occupied by some unpleasant subject. Presently he began to speak in a low but distinctly audible tone of voice, and his companion, to his astonishment, heard him say:

"I'm very sorry I accepted [illegible] I don't know the man. It would certainly, but the worst is [illegible] I must ask him to dinner."

Silence followed this [illegible] thinking. His lordship was [illegible] that he had betrayed his thoughts was probably still meditating [illegible] the same unpleasant subject when the voice of his companion broke the silence.

Apparently this stranger was afflicted with the same malady from which his lordship suffered, for he exactly imitated Lord Dudley's tone as he said:

"Perhaps he'll think I did it to make his acquaintance. Why, I would have done the same to any farmer on his estate. I hope he won't ask me to dinner, for I shan't accept his invitation."

Lord Dudley's abstraction was all gone. He listened to the other's words, immediately comprehending the joke against himself, and frankly offered his hand to his companion, making many apologies for his involuntary rudeness.

The stranger proved magnanimous, and from that night the two became fast friends.

THE TAXIDERMIST.

He Stretches Animal Skins Over Plaster of Paris Forms.

Recently a prominent taxidermist of St. Louis was taking a party of visitors through his establishment. He had some very rare specimens of big game fish, both of the sea and river, besides a large collection of birds of every clime about the walls.

"Is that stuffed, too?" asked a lady, indicating the lifelike form of a small pet dog which sat motionless upon the hearth.

The taxidermist frowned and returned very indignantly:

"Madam, we do no stuffing here. We stretch our hides over plaster of paris forms. The day of stuffing is past, and no up to date establishment does it."

The party was taken upstairs, through the rooms where the real taxidermy is done. They had expected to see hides being crammed full of sawdust, shavings and perhaps hair. No such thing was seen, however, and in place of this were men and boys molding out the forms of deer, antelope, fish and other kinds of animals in the smooth white plaster. This is done very much in the same way as the terra cotta cornices are molded to grace the corners of buildings. The hides after going through the cleaning process are stretched tightly over the plaster form, which indeed is more lasting than the old fashioned manner of stuffing them.

"Even specimens of fish are treated in this manner," resumed the taxidermist, "and you may easily see how a skin would retain its shape a great deal longer over the hard, smooth surface of the plaster than if a softer material were crammed into it, which if improperly done will bulge and last but a short time."—Exchange.

Lincoln's Last Law Case.

Lincoln tried his last case in Chicago. It was the case of Jones versus Johnson in April a[illegible] May, 1860, in the United States circuit court before Judge Drummond. The case involved the title to land of very great value, the accretion on the shore of Lake Michigan. During the trial Judge Drummond and all the counsel on both sides, including Lincoln, dined together at the house of Isaac N. Arnold.

At the conclusion of the dinner this toast was proposed: "May Illinois furnish the next president of the United States." It was drunk with great enthusiasm by the friends of both Lincoln and Douglas.—Chicago Record Herald.

Fatalism Exemplified.

She—I hope, dear, that you are not going to worry about my exceeding my allowance this time.

He (brightening up)—You don't mean to tell me, dearest, that there isn't any necessity for it?

"Certainly not. What's the use of worrying about something you can't help?"—New York Life.
